

FRESH EVERGREENS

PLACEMENT:

- Indoors, your greenery should be kept away from heat sources that may dry them out, such as direct sunlight or heat vents.
- Outside, display them in a sheltered spot. Be sure to protect the surface your greenery rests on from moisture.
- If candles are used in your arrangement, make sure the flames are at least 3" away from the greenery, and never leave the candles burning unattended.

WATER:

- Gently remove your evergreens from the box and mist them with water.
- Continue to mist daily. If your greenery arrives in an oasis block, also keep the block moist.
