

WAXED AMARYLLIS BULBS

This wax-covered amaryllis bulb is completely self-sustaining, blooming with no care whatsoever. The waxed bulb already contains all the energy it needs to flower.

BLOOM:

- At average room temperatures, it can be expected to bloom for about 3 weeks.
- This is a single-use Amaryllis, and it will not bloom again in subsequent years.

PLACEMENT:

- It can be set on any flat surface or placed on a tray (tray included with select varieties only).
